LB 99, 162, 174, 174A,
312, 443, 492, 505,
534

Review respectfully reports that we have carefully examined and reviewed LB 534 and recommend that same be placed on Select File with amendments; 312 Select File with amendments; 443 Select File with amendments; 162 Select File with amendments and 99 Select File, signed, Senator Wesely, Chairman.

Mr. President, your committee on Enrollment and Review respectfully reports that we have examined engrossed LB 492 and find same correctly engrossed and 505 correctly engrossed.

Mr. President, your Enrolling Clerk respectfully reports that she has on this day at 8:40 a.m. presented to the Governor for his approval the following bills: 174 and 174A.

PRESIDENT: The Chair would like to in behalf of Senator Cal Carsten introduce a very close friend of Cal's from Avoca, Mr. Robert Hallstrom. Would he stand up and be recognized? Good morning, Mr. Hallstrom. Welcome to the Legislature. The Chair would also take this time to announce, perhaps you saw it, but Edmund Francke who was former assistant Sergeant at Arms here in the Legislature, passed away Tuesday of this week and just if you have not seen it, I just bring it to your attention that Mr. Francke did pass away earlier this week. Proceed then with agenda item #5. Speaker Marvel, would you like to make a note about what is going to take place this morning before we get into the motions? The Chair recognizes Speaker Marvel.

SPEAKER MARVEL: We are still attempting to attack General File and you will note item #10 that discusses General File, we are going to try this this afternoon and then get your reaction to it and we will give each one of these General File bills fifteen minutes and then if it does not advance, then it simply would hold its place and eventually we would attempt to schedule those final reading bills which have not received approval on a special type of special order. When it says special order that doesn't mean if a bill doesn't make it in fifteen minutes it gets an extra hour and I would also call your attention to one other thing that will be coming up and that is that either tomorrow or the first of the week we will be moving to Select File and if you want to get your worksheet out today and look at Select File you will find that we have nothing but controversy left on Select File and we are going to have to limit that debate or we are going to be in deep trouble. So if you have any questions on General File item #10 we probably can take them up this afternoon but I want to alert
